Section 1. Architectural Committee. Created by action of the Board of Directors on March 16, 2000, the Architectural Committee is hereby created and empowered to act on the listed specific responsibilities. The committee will consist of five members of the Homeowners Association, two members of which must be current members of the Board of Directors. The Board of Directors will appoint all members of the Architectural Committee.

Terms. Terms for each member of the Architectural Committee will be: three members for two years, two members for one year.

Responsibilities. The Architectural Committee will be responsible for reviewing and approving all construction that is required to be approved, as specified in the Declaration and Covenants, Conditions, Restrictions, Easements and Reservations for Discovery Point (also referred to as CC&R's). All construction, modification, painting, or the like which the CC&R's require to be "approved", or "approved by the board", will be accomplished by the Architectural Committee.

Procedures. The Architectural Committee will review submitted requests from the membership using the guidelines and standards that are listed in the CC&R's. The Committee will notify the applicant with their decisions as fast as practical, and in all cases within fourteen calendar days.

Appeal: Any homeowner who has their submission for approval rejected by the Architectural Committee will have the right to seek an appeal. The homeowner may present their appeal in person to the Board of Directors at the next regularly scheduled Board Meeting. The Architectural Committee will be allowed to present its reason for rejection at this same meeting. The Board will base its decisions with reference to the CC&R's, and the general welfare of the entire homeowners association. The Boards written decision must be delivered to the homeowner within ten days. The Boards decision will be final, pursuant to section 3.3 of the CC&R's.
